Note on Liberation Fonts

The Liberation family of fonts are:

- Liberation Mono – Courier New replacement
- Liberation Sans – Arial replacement
- Liberation Sans Narrow – Arial Narrow replacement
- Liberation Serif – Times New Roman replacement

They are open-source fonts that are supplied with LibreOffice.

The Liberation Fonts were created by Red Hat to substitute Arial, Arial Narrow, Times New Roman and Courier New as their width is the same. When you open a document written in Times New Roman, the equivalent Liberation Font will be used to keep the document uninterrupted.
